Bruce Morrison, EPA, Toll Free # 1-800-223-0425
Jim Silver, EPA (636) 475-3926

Cleanup Progress

- 226 yards completed.
- 97 home interiors cleaned.
- 103 vacuums distributed by EPA.

AOC modification

- Signed January 15, 2004.
- Increases yard soil replacement schedule for 2004.
- Accelerates final action on slag pile.
- Defers EPA cost recovery.

Yard soil replacement schedule

- All yards not owned by Doe Run and having soil lead levels exceeding 4,200 ppm will be completed by December 15, 2004.
- Six rental properties owned by Doe Run will be completed by December 15, 2004.
- 135 residential properties to have yard soils replaced in 2004.
- 30-day public comment period for AOC modification.

Slag Pile

- AOC modification to accelerate time table for completing Engineering Evaluation/Cost Analysis (EE/CA).
- Draft EE/CA due 15 days from effective date of AOC.
- Draft Wetland Mitigation Plan due 45 days from effective date of AOC.

Materials Handling and Transportation

- EPA approved modification to retain current concentrate unloading station and use a conveyor system to move concentrate to rail cars.
- All concentrate trucks will continue to pass through truck wash prior to exiting facility.
